

## **Topic: Try not to send baby pictures to the plant.**

Senior baby pictures are a big part of your Senior Ad section. Your PDA (Public Display of Affection) ads are probably full of them.

Well, we want to encourage you to **not** send baby pictures to the plant. If there is any-way you possibly can, scan them and send the scans. The plant does their best to return all the actual photos you send in to be printed in your yearbook.

But with more than 10,000 yearbooks going through each year, we can not give you a guarantee (or one to the parent who gave you their only missing teeth baby picture) that every picture will come back.
